QUINTA *de* SANT'ANA

MAFRA

PHILOSOPHY

We feel growing and arranging flowers is just as much a vocation as it is an art form. For our bouquets we use only natural and seasonal flowers, adding wild, eye-catching details.

ORGANIC, LOCAL & SEASONAL

It is incredibly rewarding to witness the increase of biodiversity on our farm, since our conversion to organic farming. It is as though nature breathes a sigh of relief.

DESIGN

We want to show both the cultivated and the wild. We use flowers adding wild elements, enhancing colour nuances with subtle details that the season offers.

SUSTAINABILITY

No chemicals - No pesticides - Local & Organic - Composting

ABOUT US

Self-taught in horticulture and floristry, husband and wife James and Ann dedicate “the fertile plane” in the valley of their vineyard to grow flowers & create arrangements at the same time having a wonderful time.
